OBJECTIVE

Adaptive Information Systems student and Apple Developer with a "basics-first" troubleshooting philosophy. Seeking a Full-Time Specialist role to leverage 2+ years of technical support and creative entrepreneurship to build loyalty and deliver world-class experiences for Apple customers.

TECHNICAL CORE

- **Ecosystem Expertise:** macOS, iOS, iPadOS, watchOS, iCloud, and HomeKit integration.
- **Development:** Native Swift & SwiftUI (Apple Developer Program).
- **Systems:** Proxmox, Docker, Virtualization, AI Agentic Workflows (Ollama/LocalAI).
- **Creative:** Professional Photography, Adobe Creative Cloud, Graphic Design.

PROFESSIONAL EXPERIENCE

Walton College of Business | *IT Help Desk Technician* | Fayetteville, AR (2025 – Present)

- Provide front-line technical support for faculty and students, resolving complex hardware/software issues with an emphasis on empathy and clarity.
- De-escalate high-stress technical failures by utilizing a systematic "basics-first" diagnostic approach.
- Translate "tech-speak" into accessible solutions, ensuring users feel empowered rather than overwhelmed.

alexbcaptures | *Founder & Lead Photographer* | (2023 – 2026)

- Operated a full-service photography business, managing end-to-end client relationships and project delivery.
- Leveraged the Apple ecosystem to streamline creative workflows, from field capture to final professional edit.
- **Result:** Built a robust portfolio and reputation for reliability, consultative selling, and creative problem-solving.

PROJECTS

"Tank" – Personal Infrastructure Lab

- Architected a custom home server environment focused on multi-agent AI systems and media automation.
- Successfully integrated Apple-native technologies with open-source platforms to create a seamless, high-performance smart-home ecosystem.
- Demonstrates an "expert-level" understanding of how Apple products interface with complex networking environments.

EDUCATION & CREDENTIALS

University of Arkansas | *B.S. in Information Systems* | Sophomore

Note: Transitioning to online/flexible coursework to support full-time professional commitments.

Certifications & Memberships:

- **Apple Developer Program:** Active Member (SwiftUI focus)
- **Apple Device Support:** Certification in Progress
- **Google IT Support Professional:** Certification in Progress

KEY STRENGTHS FOR APPLE

- **Resilience:** I view every technical challenge as an opportunity to learn and improve.
- **Coachability:** I believe in asking for help to ensure the customer gets the best result, then mastering that knowledge for the future.
- **The "Pro" Perspective:** Because I build on Apple platforms, I can explain the "why" behind the features to both casual users and professionals.
